2431 ATHLETIC COMPETITION

The Board of Education recognizes the value of a program of athletic competition for both boys and girls as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intra-scholastic and interscholastic, offer pupils the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school district alone, and an opportunity for career and educational development.

For purpose of this policy, programs of athletic competition include all activities relating to competitive sports contests, games, events, or sports exhibitions involving individual pupils or teams of pupils when such events occur within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within the district.

Eligibility Standards

A pupil who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent(s) or legal guardian(s). The consent of the parent(s) or legal guardian(s) of a pupil who wishes to participate in a program of athletic competition must include an acknowledgment of the physical hazards that may be encountered in the activity.

Pupil participation in a program of athletic competition shall be governed by the following eligibility standards:

1. A pupil in grades six through eight is eligible for participation in school district sponsored programs of athletic competition if he/she is passing all courses.
2. A pupil who is absent for a school day may not participate in school district sponsored programs of athletic competition the afternoon or evening of that school day.
3. A pupil who is serving an in-school or out-of-school suspension may not participate in school district sponsored programs of athletic competition while serving the suspension.

4. A pupil in any grade who fails to observe school rules for pupil conduct may forfeit his/her eligibility for participation in school district sponsored programs of athletic competition.

Health Requirements

Good physical condition, freedom from injury, and full recovery from illness are prerequisites to participation in school district sponsored programs of athletic competition. Information concerning a pupil's HIV/AIDS status shall not be required as part of the medical examination or health history pursuant to N.J.S.A. 26:5C-1 et seq.

Pupils enrolled in grades six to eighth must receive a medical examination prior to participation in school-sponsored interscholastic or intramural programs of athletic competition.

A medical examination is the assessment of an individual's health status. The examination shall be conducted within 365 days prior to the first practice session with examinations being conducted at the medical home of the pupil. The "medical home" is defined as a health care provider and that provider's practice site chosen by the pupil's parent(s) or legal guardian(s) for the provision of health care. If a pupil does not have a medical home, the school district shall provide this examination at the school physician's office or other comparably equipped facility. The parent(s) or legal guardian(s) may choose either the school physician or their own private physician to provide this medical examination.

The findings of this examination shall be documented on a form that is approved by the Commissioner of Education and shall include: immunizations pursuant to N.J.A.C. 8:57-4.1 through 4.16; medical history including allergies, past serious illnesses, injuries, operations, medications, and current health problems; health screenings including height, weight, hearing, blood pressure, and vision; and physical examinations. A physical examination is the examination of the body by a professional licensed to practice medicine or osteopathy or an advanced practice nurse.

The medical examination shall also include a health history questionnaire completed and signed by the parent or legal guardian. A health history is a record of a person's past health events provided by the individual, a parent or legal guardian, or health care provider.

The report of health findings of the medical examination for participation shall be documented on the Athletic Preparticipation Physical Examination Form approved by the Commissioner of Education to determine whether the pupil had or currently has any of the health conditions outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(1) since their last physical. The medical examination shall be conducted in accordance with N.J.A.C. 6A:16-2.2 and Regulation 2431.2.

The medical report shall include, at a minimum, normalities as outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(2). The medical report shall be provided to the school physician if the school physician did not conduct the medical examination. The medical report shall indicate whether the pupil is allowed or disallowed to participate in a program of athletic competition and must be completed and signed by the original examining physician, advanced practice nurse, or physician's assistant. A form that is incomplete shall be returned to the pupil's medical home for completion. A pupil that does not have a completed Athletic Pre-participation Physical Examination Form shall not be permitted to participate.

If the pupil's medical examination was completed more than sixty days prior to the first practice session, the pupil must provide a health history update of medical problems experienced since the last medical examination in accordance with N.J.A.C. 6A:16-2.2(h)1.iii. This health history update must be completed and signed by the parent(s) or legal guardian(s).

The health findings of this medical examination shall be maintained as part of the pupil's health record.

Emergency Procedures

Athletic coaches shall be trained in first aid to include sports-related concussion and head injuries, the use of a defibrillator, the identification of pupil athletes who are injured or disabled in the course of any athletic program or activity, and any other first aid procedures or other health related trainings required by law or the Superintendent.

Interscholastic Standards

The Board shall approve annually a program of interscholastic athletics and shall require that all facilities utilized in that program, whether or not the property of this Board, properly safeguard both players and spectators and are kept free from hazardous conditions.
